Now, she's helping homeless families. Stewart is a volunteer with the Henderson-based "Omelette for the Homeless" campaign, an event that's part charitable fundraiser and part life-changing experience. At each of the seven annual "Omelette for the Homeless" dinners, diners eat an omelette breakfast that Stewart's nonprofit organization prepares and sells. The volunteer cost of running the dinner is \$300, Stewart said. She said the fundraiser goes from a \$10-per-plate dinner to a \$50-per-plate dinner as proceeds from the dinners grow. Last month, the Henderson fundraiser was Stewart's seventh. "It's different, because if it were a hotel, you would always have people sleeping at the back door or someone who doesn't want to be recognized," Stewart said. "It's so nice to see these families smile and make a face. I can't wait until

TAL-Flanger

The TAL-Flanger is an easy to tweak, pitch shifter, flanger effect with its own unique sound. It works great for creating flanger effects with soul. The effect has 7 different feedback configurations, allowing you to customize your effect settings to your needs. This audio plugin will offer music enthusiasts the possibility to generate a wide range of flanger effects, varying from subtle to extreme. Additional Features: - Digital Delay; - FFT; - Side Chaining; - T-Fusion; - Time Warp. All the settings are saved, so you can get back to your favorite settings every time you run the plugin. Special sound: • The TAL-Flanger is based on the famous TAL-Quadra Stereo Flanger, a flanger effect which has been around for many years. • The algorithm for this effect is adjustable in the feedback corner of the interface. • The original design of the TAL-Flanger provides a healthy and not too high-pitched flanger effect. • We have tuned the algorithm, so the flanger effect can fit into any style of music. • Thanks to its own algorithm, the TAL-Flanger is able to create a wide range of unique flanger effects. • The TAL-Flanger offers the possibility to create pitch bend effects, but it has its own unique sound. • With its unique TAL-Flanger algorithm, the TAL-Flanger creates a lush, warm, and interesting sound. Note: • This TAL-Flanger package supports TAL-Translator VST (previously known as vst-a). It means, you can create VST effects from midi files with this TAL-Flanger VST plugin package. • Only the TAL-Flanger VST plugin package is included in this package. All the other plugins are only for demonstration and for testing. TAL-Flanger

Flanger is the perfect effect to add a special atmosphere in your mixes. By increasing the delay of your dry signal, this plugin will create the feeling of a less wet signal. This is a type of echo that creates an interesting movement in your mix. This effect is perfectly suited to smooth your mixes, to create a more live feeling in your tracks. All parameters are easy to manage. You can apply the same effect on several tracks at once, with a customizable delay. Version 1.0 is a VST version of the TAL-Flanger plugin. ===== Vendor: The TAL-Flanger VST plugin package was released in 2019 by the Munich based audio development company The Loop Hole. It is based on their TAL-Delay VST plugin. The plugin package offers a wide range of TAL-Delay VST plugins and can be used as a standalone or as a bundle with other plugins.
